

MOTION OFFICE

Care and Maintenance

Maintenance & Cleaning

Wool is naturally anti-static and water repellent making it less likely to attract dirt and absorb spillages. It is important to keep the fabric clean as this will extend the life of the fabric and preserve its fire retardant properties. Frequent (weekly) vacuuming on low suction is advised to remove dust and loose soiling. Under normal commercial use we recommend cleaning 1-3 times yearly by a professional dry cleaning service. It is important to protect the fabric from direct and refracted sunlight as this will ensure that the fabric retains its original colour.

Spot Cleaning

Soiling should be acted on immediately to prevent lasting damage to the fabric. We always recommend testing stain removal detergents and solvents on an inconspicuous area first.

- Immediately absorb any liquids with an absorbent cloth.
- Scrape off any solidified material with a spoon.
- Remove loose material with a vacuum cleaner on low power.
- Wipe clean with a damp cloth using pH-neutral upholstery shampoo (follow directions on packaging). Do not scrub or use a stiff brush.
- Use clean water without any cleaning product for the final clean. Do not use dish washing or laundry detergents.
- Do not use detergents, bleach, ammonia or soap intended for hard surfaces.
- Dry with a clean white cloth using a circular dabbing motion to avoid edge marks. Use of hair dryer may also help avoid edge marks.
- Allow to dry thoroughly before reusing.

This is intended as a guide only. We recommend consultation with a fabric care professional.

AGILE WINDER DESKS

Safety and usage

Safety

- The table must be used in a safe manner. Inappropriate use may cause damage to the table and/or cause bodily harm to the user or persons nearby.
- Do not use the table frame to lift people

Usage

- The height-adjustable table is designed for use in dry work environments only.
- The table height is infinitely adjustable within its height range so that it can be set to the user's most ergonomic working height. The user should seek professional help to establish their optimum working height.
- The table has been designed as a device to elevate the users work surface and associated office peripherals. Do not use the table frame for any other purposes than that which it has been designed for. Any other use is at user's own risk!
- Do not crawl, lie or move around under the table frame, and do not sit or stand on the table frame.
- CHILDREN should only use the table when supervised by adults.
- Liability: The manufacturer accepts under no circumstances warranty claims or liability claims for damages arising from improper use or handling of the table frame other than that described in this operation manual.
