freeway

game features

The sophisticated style of the Game chair is the ultimate point of difference to others of its kind. By combining the best of aesthetic and functional design features, the Game is the superior choice for conference room, meeting, training and cafeteria needs. Rigid tubular steel frame is light enough to move and carry with ease while retaining the durability required for public seating.

design

ethos

Freeway Design is committed to understanding how humans function and interact in the workplace and to designing high quality, original products that address those needs. These products are not only the fruit of our observations and research – they actually help organizations perform better and create a better workplace.

We believe that furniture should be a synthesis of both function and form, and that the proof of a great product is that it stands the test of time. It is our belief that products should be easy and intuitive to use. It's the challenges you face in the workplace that inspires us to design furniture that simply put, is legendary.

As an integral part of the design process, Freeway Design supports policies and practices to protect our environment, conserve natural resources and reduce waste. We are committed to help safeguard all natural habitats and communities affected by our operations. We strive to make the most efficient and responsible use of renewable resources, including water, soil and forests.
