Urgent Pick	Pick-up or dispatch same day as order received • Order received by 11am

Standard Dispatch Times

Stocked product - usual transit time

- Dispatch next day if ordered before 11.00am

Custom product - usual transit time

- Small order dispatch 7 days from order
- Large order dispatch 15 days from order

3 Working days from dispatch of order
3-5 Working days from dispatch of order
7-10 Working days from dispatch of order

Receiving Deliveries

Check

- Thoroughly check all deliveries to confirm it has arrived undamaged.
- If there is signs of damage you can still receive the freight, but you must note the damage on the consignment note.
- Although drivers are keen to deliver the freight and depart, you have every right to ask them to wait. Drivers can be asked to wait up to 20 minutes until the receiver has completely checked the consignment.

Endorse

- If an item is damaged, note the damage (endorse) on the consignment note BEFORE before signing it.
- If the packaging is damaged and you are unsure whether the item is damaged or not, endorse the consignment note as 'damaged packaging': This will help with claim should the item be damaged.
- If any items are missing, note this on the consignment note with the correct quantity before signing it.
- OLG, understands larger orders can be difficult to check thoroughly at time of delivery. For large orders we will allow 24 hours from time of delivery for you to check the goods and inform us of anything untoward.

Advise

- If your order has arrived damaged, or been short-shipped, please contact the OLG Customer Care team immediately.
- Provided the consignment note is endorsed, OLG will arrange replacement parts to be dispatched expediently, usually within 24 hours.
- If the consignment note is not endorsed, OLG will supply the required replacement parts at your cost, and will ensure these are dispatched ASAP, usually within 24 hours.

Returns Policy

- See **myolg.online/terms** for Returns Policy

ASSEMBLY REQUIRED

Please note: Most product shown in this Product Selector requires onsite assembly.

Channels to Market

Standard In-Stock

"An in stock solution for every space in today's workspaces."

Key Advantages

- Deep stocks
- Next day dispatch
- All product made from computer controlled cutting programs to ensure perfect future product matching
- Australia wide delivery network
- Over 10,000 standard sell SKU's in this zone

Custom In-Stock

"A customisable offering that utilises proven, pre-engineered components and the latest design trends."

Key Advantages

- Fast turnaround for colour-only changes
- Can combine with install and extra services
- Leverage's off deep stock holding
- Australia wide delivery
- Online purchasing for over 20,000+ SKU lines

Bulk Buying

"A product selection for resellers that are looking to utilise bulk buying to maximise profits."

Key Advantages

- Best price offering
- Colour/size customisable
- Backup matching stock from in-stock programmes
- Delivery windows from 8-10 weeks
- Low volume order possibilities
- Direct to site delivery programme

Tailored Design

"A bespoke product design/engineering/supply/deliver service that brings cost effective furniture deliverables for the hospitality, education, office and government institution sectors"

Key Advantages

- 25 years importing experience
- Best price for bulk made to order projects
- Colour/size customisable
- Unprecedented mixture of available materials that can be combined on the same projects, while utilising trusted, pre-proven manufacturing facilities
- ISO 9001, ISO 14001 factories
- Experienced team with delivery experience across 7 years and 4 continents

Warranty

10 Year

Freeway seating; Modulus, Uni & Team table frames; Axis & Axis height adjustable desking; Anvil desking; Agile desking; Cosmic desking; Studio50 Screens; Monitor arms; Plantation

All OLG products are durable for long-term performance and value. Our range has been rigorously tested to the equivalent of 15 years average use, and our processes comply with internationally recognised certifications. We know the peace of mind a warranty like this can give when making a purchase. If you need to know any information about the legal terms of your warranty, you can find everything right here, or simply give one of our friendly account managers a call.

The 10 Year Warranty is valid on orders placed on or after 1st October 2018.

Warranty

OLG promises the original purchaser that it will repair or replace with the comparable product, at its option and free of charge (for material and components) any product, part or component which fails under normal use over the duration of specified warranty term (taken from the date of purchase). Normal commercial usage is defined as the equivalent of a single shift, 40-hour work-week.

A customer who requests services under this warranty must comply with directions from OLG staff if the warranty claim is to be investigated, and if OLG is to provide repairs and/or spare parts and/or replacement solutions (where applicable). The customer will usually be required to provide a detailed description of the warranty service they are requesting, accompanied by any relevant photos or videos.

If the customer does not comply with the directions aforementioned, OLG is not required to provide services in accordance with this warranty. Without the description and images, OLG can neither investigate the claim nor provide an appropriate solution.

Goods purchased from OLG are covered by guarantees that cannot be excluded under Australian Consumer Law. The customer is entitled to a replacement or refund in a case of major fault. Goods will also be repaired or replaced if they fail to meet acceptable quality standards and the failure does not amount to a major failure.

Minor variations in dimensions, colour, grain, or finish in Goods received by a customer, when compared with images or descriptions on the Website, are not covered by this Warranty. The Warranty does not cover damage that affects only packaging. Goods will also be repaired or replaced if they fail to meet acceptable quality standards and the failure does not amount to a major failure.

Warranty Limitations

The particular product lines, materials and components listed below are covered according to the following schedule from the date of sale:

- Five Years - Laminates, veneer finishes, adjustable work surface mechanisms, all components of cafeteria tables, glides, casters, seating controls, seating upholstery foam and stacking chairs.

Warranty Exclusions

This warranty does not apply and no other warranty applies to:

- Products that were not installed, used or maintained in accordance with OLG instructions
- Normal wear and tear, which is to be expected over the course of ownership
- High-wear items such as glides and textiles
- Abuse, misuse, or accident
- Alteration or modification of the product including substitution of OLG components with any unauthorised non-OLG components
- Products considered consumables, Customer's Own Material (COM) or non-standard textiles and materials
- Variations occurring in surface materials (e.g. colour-fastness or matching grains, textures and colours across dissimilar lots)
- Products used for rental purposes

To the extent allowed by law, OLG makes no other warranty, either express or implied, including any warranty of merchantability or fitness for a particular purpose. OLG will not be liable for any consequential or incidental damages.

Certification

Specific product in this product selector comes with some of these certifications, or can be manufactured to qualify. Please phone the OLG Office help desk to discuss.

Warranty

OLG Warranty promises the original purchaser that it will repair or replace with comparable product, at its option and free of charge (for material and components), any product, part or component which fails under normal use over the duration of the specified warranty term (taken from the date of purchase). Normal commercial usage is defined as the equivalent of a single shift, 40 hour work-week.

ISO 14001

ISO 14001 Certification is the international standard that specifies requirements for an effective Environmental Management System (EMS). It provides a framework that OLG as an organization can follow. At OLG we are using this framework as an approach to continuous improvement across all environmental aspects of our business.

ISO 9001

ISO 9001 Certification is the world's most widely recognized Quality Management System (QMS). At OLG its our guiding principle to meet the expectations and needs of our customers through quality management systems that continually monitor and manage quality across all operations to deliver consistent performance and service.

AS/NZS 4801

AS/NZS 4801 is the benchmark to assess Occupational Health & Safety Management systems for organisations. This standard contains vital information about meeting legal requirements and invaluable guidance on how to establish sustained improvement in health and safety performance in your business.

GECA

GECA (The Good Environmental Choice Australia) Ecolabelling Program, operates a national third-party, independently verified ecolabel, in conformance with Environmental labels and declarations (ISO 14024), that can be applied to a wide range of products and services. This certification gives you an independent, reliable and convenient way to select OLG products and services that are certified by GECA to deliver better environmental outcomes. ***Anvil and Axis (available to GECA specification by special request).*** EkoSystem approved as EKO Brand.

AFRDI

AFRDI Certification is a set of standards covering strength, durability, stability and safety (and ergonomics in the case of desks and workstations). This means that OLG are accountable for maintaining the quality of our products, submitting them for regular auditing to ensure they meet the highest standards for commercial use. ***Applies to: Balance Executive & Urban Mesh (Level 6 – Severe Commercial) and Modulus Flip Table (Level 3 – Severe Commercial, tested with 1500 x 750 top).***

BIFMA

BIFMA Certification focuses on safety and performance standards developed by the BIFMA Engineering Committee. The standards provide manufacturers, specifiers, and users with a common basis for evaluating safety, durability, and the structural adequacy of the specified furniture, independent of construction materials. The standards define specific tests, laboratory equipment to be used, the conditions of test, and the minimum acceptance levels to be used in evaluating these products. ***Applies to: Balance Executive, Game, Agile+ & Agile Electric (2 column single motor).***

AUSTRALIAN TRUSTED TRADER

Australian Trusted Trader Certification is a standard that rewards companies showing compliant behaviour, secure supply chain with strong security practices, to enjoy a wide range of trade facilitation benefits. OLG have held this status since 2017.

FSC

FSC is the leading catalyst and defining force for improved forest management and market transformation, shifting the global forest trend toward sustainable use, conservation, restoration, and respect for all. ***Applies to: Plantation timber legs***

GREENGUARD

A GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air. GREENGUARD Gold Certification offers certification criteria that considers safety factors to account for sensitive individuals (such as children and the elderly), and ensures that a product is acceptable for use in environments such as schools and healthcare facilities. ***Game, Balance Executive, Balance Project***

Product Specifications

Frames

90 x 60 mm legs

Flat foot design - Single desk

H frame design - Double sided desk

Available in Fixed, Winder, Electric 2 Column or 3 Column

White or black powdercoat finish

Weight rating 160 kg

Worktops

Melamine - 25 mm E1 grade substrate finished in studio white or new oak with matching 2 mm PVC edge

Scallop cut-out in rear centre 614w x 50d (only available in some sizes)

90° two piece worktop with a join at 1200 mm along the left or right hand side

90° & 120° worktops include cable ports

Power & Data

In screen or integrated trays

Features

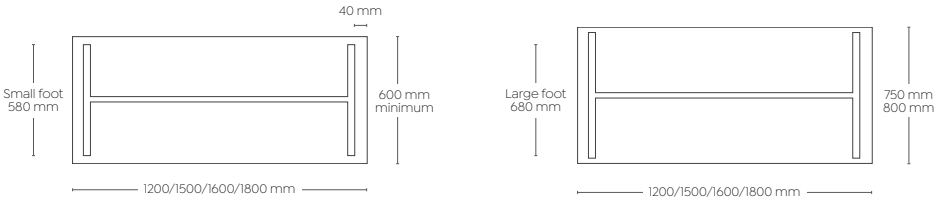

Handset - Set restricted height range

Handset - Digital readout

Anti-collision control

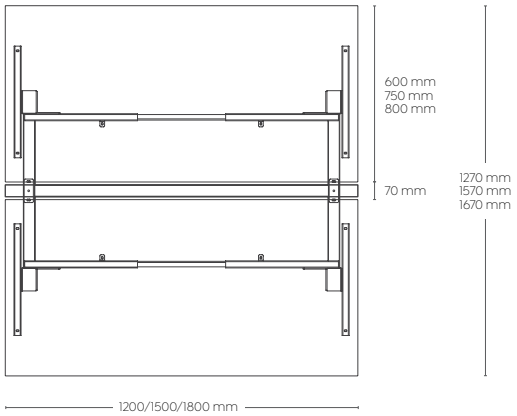

Single Sided Desks - Single & Double Motor

Double Sided Desks - Single & Double Motor

Studio50

Transom Guide

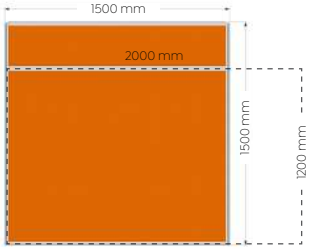

Size

The requirement of a transom is dictated by the maximum width of screen core.

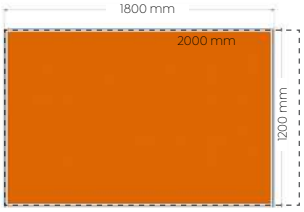

General Rules

Transom required
If both screen dimensions are larger than 1200 mm (eg 1800h x 1500w)

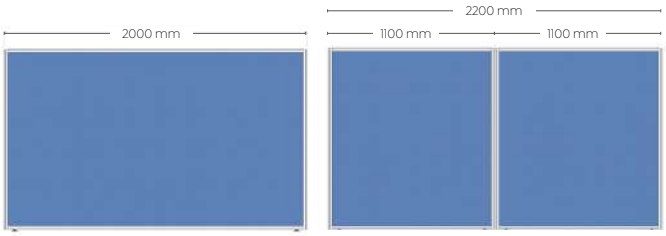

Transom not required
If screen height is 1200 mm or less (eg 1200h x 1800w)

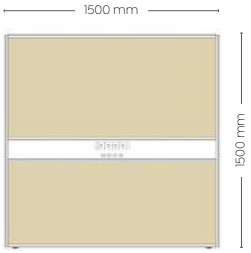

Notes

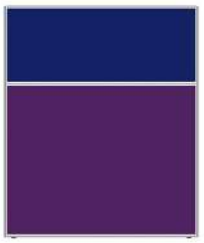

The maximum width of a single screen is 2000 mm, any screen larger than 2000 mm width will need to be split into 2 screens.

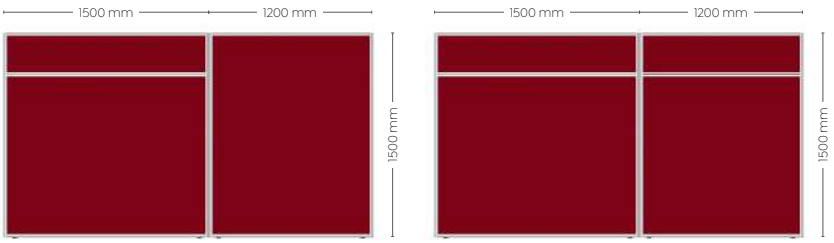

Cable Management has the same effect as a transom.

By adding transoms, you are able to have multiple colour options on your screen.

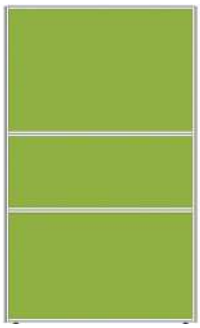

We recommend running a transom on all adjoining screens at the same height to achieve a uniform aesthetic.

Transom required *Transom not required* *Our recommendation*

Our standard recommended transom heights:

1200mm
(Standard transom height)

720mm
(Fixed desk height)

Fabric

Breathe

Horizontal
(Max screen height 1500mm without transom)

Splice

Directionless

Motion Felt

Directionless

MotionOffice

Product Specifications

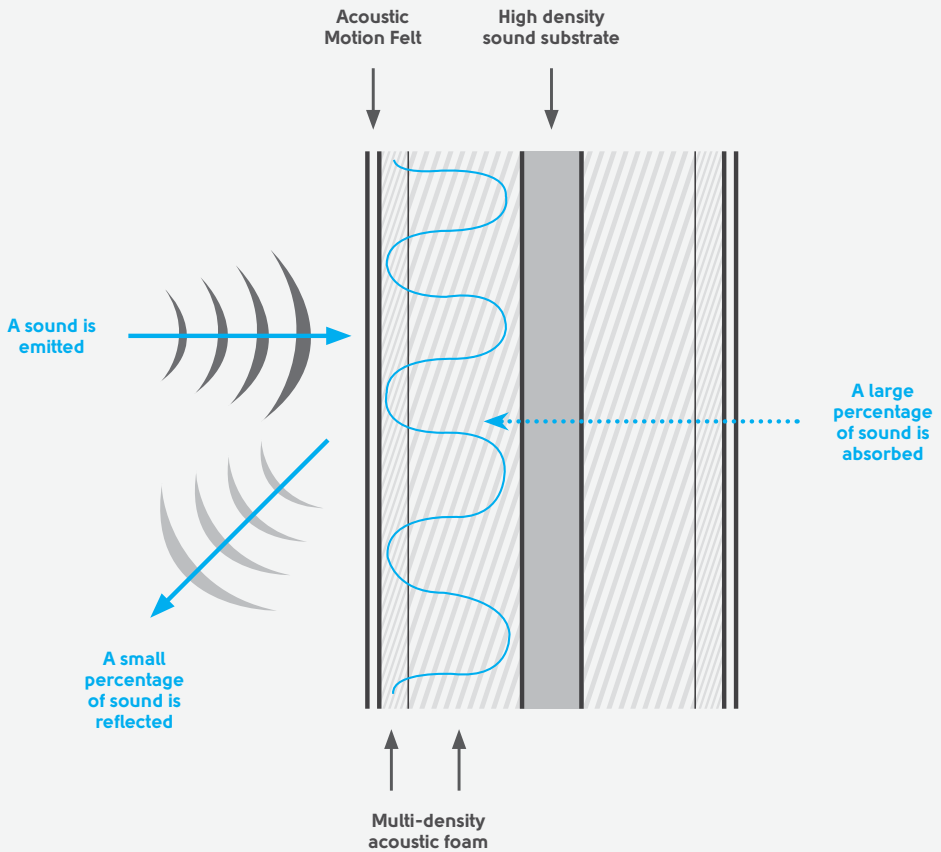

Warranty
Frame: 10 years
Fabric: Motion Felt 5 years

Delivery Times
Stock Items: Finishes/combinations shown in this product selector - 10 days
Standard Projects: Standard components, alternate mix of 'Motion Felt' / Eurotex PU upholstery - 70-80 days
Custom Projects: Non-standard components or non-standard upholstery - 100 days

Assembly
Assembly is required for the majority of MotionOffice products.

Custom Items
30% deposit is required on custom orders *(a custom order is any order with fabric other than the stock finishes shown on these pages).* All custom orders must go through the MotionOffice Configurator at motionoffice.com or any custom items not shown in this document or on the configurator must go through a sign off process. The above delivery times maybe subject to change based on fabric & order information and international holidays. Some custom fabrics according to manufacturers specifications may be unsuitable. Please check with your MotionOffice sales representative when placing your order.

Acoustics

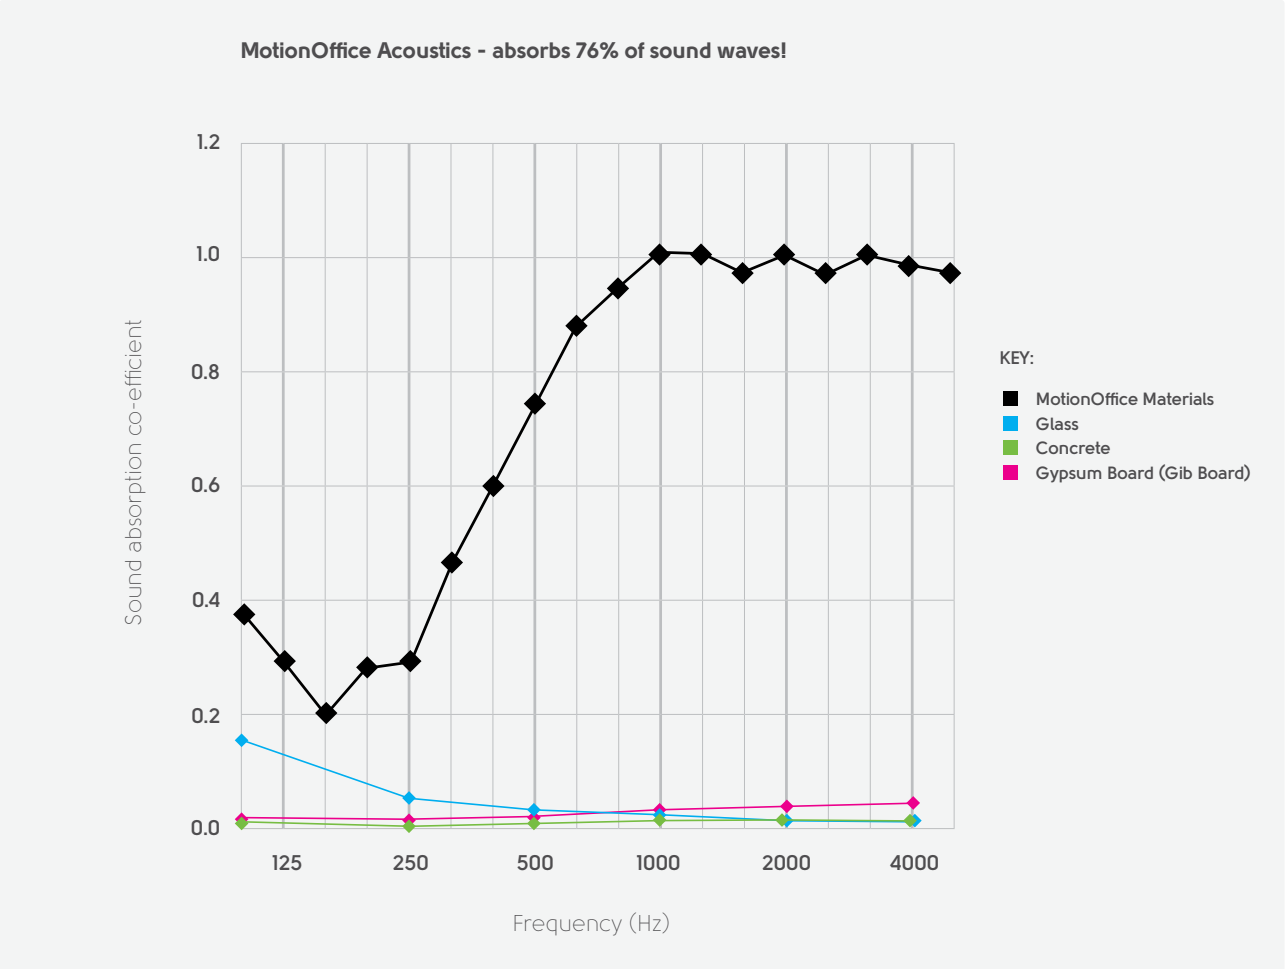

Standard wall materials absorb 3%, MotionOffice has been tested and absorbs 76% of sound waves!

Imagine standing in the middle of a room with all concrete surfaces and one open window, and you blow a loud whistle. The sound that hits the open window passes right through. The sound that hits the concrete surfaces in the room begin to reflect back. The NRC (Noise Reduction Coefficient) of the open window would be 1.00 which is the absence of sound reflection. The NRC of concrete is .03, indicating that 97% of the noise that hits the concrete surfaces will reflect back off the surface. The NRC value of a surface simply denotes its ability to absorb vs reflect sound. The higher the NRC value, the stronger the sound absorption and the lower the sound reflection in the room.

MotionOffice panels have an NRC rating of 0.76 which means that 76% of the sound wave entering into the material will be captured and converted. MotionOffice dramatically contributes to reduction of noise bleed in open plan environments!

Acoustics

MotionOffice

Product Specifications

Motion Felt Motion Felt can be used to upholster all MotionOffice products.

Ash Grey (MFAS) | Stone Grey (MFST) | Charcoal Grey (MFCL) | Deep Blue (MFDB) | Ice Blue (MFIC) | Emerald Green (MFEM) | Bumblebee Yellow (MFBB) | Avocado Green (MFAV) | Sunset Orange (MFSO) | Chilli Red (MFCR)

STANDARD/STOCK COLOURS

Motion Felt is a wool blend textile with a soft hand and contemporary colour-ways that will add a subtle, elegant distinction to larger, upholstered furniture items.
Motion Felt is yarn dyed and has been milled to give it a direction-less felted appearance. The milling process also increases the inherent durability and water repellent properties, which along with the natural flame resistant properties of wool, makes this fabric very suitable for heavy commercial use.

Technical Specifications

Type:	Upholstery
Composition:	50% Wool 50% Polyester
Weight:	750g/lin.m
Roll Width:	150cm
Repeat:	None
Abrasion:	100,000 rubs (Martindale)
Pilling:	4-5, BS EN ISO 12945-2:2000
Light Fastness:	4-5, BS EN ISO 105-B02
Flammability:	BS EN 1021.1 (cigarette)
	BS EN 1021.2 (match)
	CAL TB 117-2013
Colour Matching:	Batch to batch variations in colour may occur within commercial tolerances

Maintenance & Cleaning

Wool is naturally anti-static and water repellent making it less likely to attract dirt and absorb spillages. It is important to keep the fabric clean as this will extend the life of the fabric and preserve its fire retardant properties. Frequent (weekly) vacuuming on low suction is advised to remove dust and loose soiling. Under normal commercial use we recommend cleaning 1-3 times yearly by a professional dry cleaning service. It is important to protect the fabric from direct and refracted sunlight as this will ensure that the fabric retains its original colour.

Spot Cleaning

Soiling should be acted on immediately to prevent lasting damage to the fabric. We always recommend testing stain removal detergents and solvents on an inconspicuous area first.

- Immediately absorb any liquids with an absorbent cloth.
- Scrape off any solidified material with a spoon.
- Remove loose material with a vacuum cleaner on low power.
- Wipe clean with a damp cloth using pH-neutral upholstery shampoo (follow directions on packaging). Do not scrub or use a stiff brush.
- Use clean water without any cleaning product for the final clean.
- Do not use dish washing or laundry detergents. Do not use detergents, bleach, ammonia or soap intended for hard surfaces.
- Dry with a clean white cloth using a circular dabbing motion to avoid edge marks. Use of hair dryer may also help avoid edge marks.
- Allow to dry thoroughly before reusing.

This is intended as a guide only. We recommend consultation with a fabric care professional.

Environmental

As a caring, corporate citizen, we support the responsible stewardship of the earth, its inhabitants and its resources.

Our fabrics are designed and made to last, and in their manufacture, use and disposal, embody the environmental principles of Reduce, Reuse & Recycle.

Fire retardants are bromide free.

Dyes are free from heavy metals.
