

Sanitiser Station

OLG Healthcare's sanitiser station is a patented stainless steel bollard dispenser that is simple, fully mechanical and available with refills of high-grade, Australian made hand sanitiser.

The foot pedal activation avoids the risk of your hands being contaminated. The stand is fast and easy to assemble. It is suitable as an independent stand or can be fixed to the ground and is robust and vandal proof.

- No contact with hands
- 100% mechanical
