# Product Comparison: Which Standing Desk is the Best Value for Money?

By: [Jared Hale](#)

Which standing desk is the best value for money? We'll compare our Agile+ range and two desks produced by our main competitors.

There are *literally* hundreds of different standing desks on the market today. With such a broad range, you also see a huge spectrum when it comes to both quality and price. You can spend anywhere from a few hundred dollars on a cheap standing desk kit all the way up to \$10,000 or more on a bespoke, tech-infused workstation.

In most cases, you pay for what you get. Cheaper products generally aren't as reliable as the higher quality products that cost more. But in the middle-to-upper range of prices, how can you tell if the price tag matches the quality of the products being sold? More specifically, how do you know if an OLG standing desk (or any other standing desk for that matter) is worth the price?

In this article, we'll compare three virtually identical standing desks. One is from our popular Agile+ range and the other two are desks produced by some of our main competitors. Without naming names, we'll compare price ranges, capabilities, and feature inclusions on all three standing desk ranges. By the end of this article, you'll have a better understanding where OLG sits in the market, both in terms of price and quality.

## The Three Contenders

To keep things fair, we've selected the “**base model**” of two, single-sided electric standing desks from two of our competitors.

## Budget Standing Desk

*Budget Option*

The first of these competitors is known for their high-volume, “cheap & cheerful” model. They’ve got access to a range of off-the shelf standing desks with a minimum level of specification and often lower pricing.

Their base model standing desk has a three-column, frame built from 1.2mm thick, powder coated steel. A whisper-soft dual motor powers the desk and at 38dB, it’s the quietest standing desk of all three.

While mostly favourably reviewed, a common complaint about this standing desk revolves around it’s “wobble factor”. Users can experience a mild to severe “rocking” or “wobbling” that can eventually require early maintenance.

## OLG Agile+

OLG Agile+

Popular for its high-quality craftsmanship, sleek design and whisper-quiet operation, the Agile+ standing desk was designed from the ground-up with business users in mind. Every design element is functional, from the mechanism that reduces instability at full height extension to intuitive cable management systems that give users that clutter-free, tangle-less experience.

The system also integrates seamlessly with other single workstations and back-to-back desks. You can further enhance the Agile+ range by adding fabric privacy panels, floor-mounted Studio50 or AcoustiQ screens, monitor arms, and personal storage units.

An office staple for over a decade, users are especially fond of the fact that the entire desk can be assembled in less than five minutes.

## High Cost Standing Desk

*High Cost Standing Desk*

At the expensive end of the market, we've chosen a desk that closely resembles the other in terms of specs and capabilities. Historically, people have known this competitor as the Ferrari of office furniture manufacturers. They've been the pinnacle of high-end office products for well over half a century, having invented some truly iconic pieces.

	Budget Option	OLG Agile+	High Cost Option
Motor Type	Dual Motor	Dual Motor	Dual Motor
Steel Thickness	1.2mm	2mm	est. 2mm
Minimum Height	620mm	620mm, or 640mm	650mm
Maximum Height	1270mm	1270mm, or 1290mm	1250mm
Wobble Factor	Severe	Mild	Mild
Max Weight	120kg	160kg	100kg
Rating	AFRDI Blue Tick	AFRDI Blue Tick	AFRDI Blue Tick
Warranty Period	10 years	10 years	12 years
Dispatch Lead Time	1-2 days	Same Day	10-12 weeks
Assembly Time	10-15 minutes	Under 5 minutes	Up to 1 hour
Price Range (RRP)	\$500-\$800	\$600-\$1100	\$1800-\$2250
